

user_view_booking_taskflow

Anjali Manoj

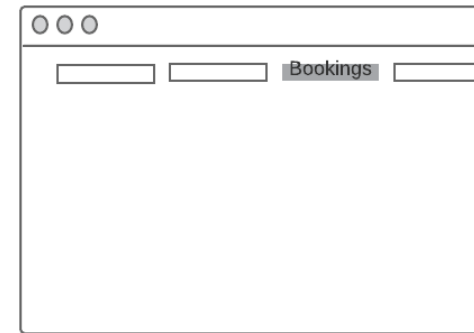

Goal: User can successfully view their booking

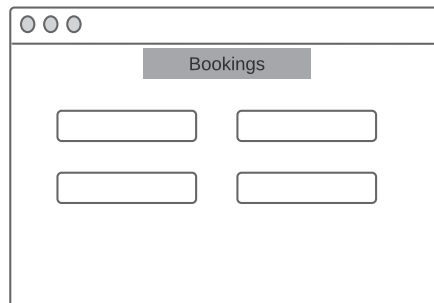

Home page where they can access the login button

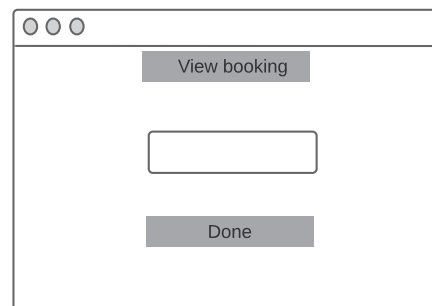

Login with username and password

After login is successful, user is redirected to their homepage where they can access the booking button

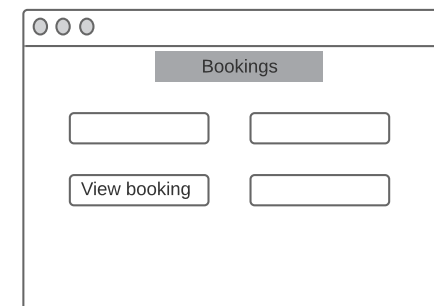

After the user is done viewing their booking they system takes them back to the booking page

The system shows the user their current booking

This section links to the graphical visualization of the room and desks for seeing where there seat is

From here, user can choose to view their booking
