

admin_generate_report_with_employee_info_taskflow

Anjali Manoj

Goal: Admin can generate a CSV report from all Employee information

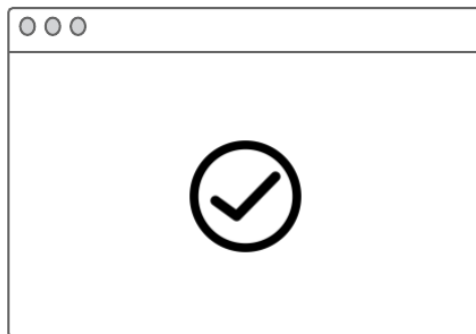

Home page where they can access the login button

Login with username and password

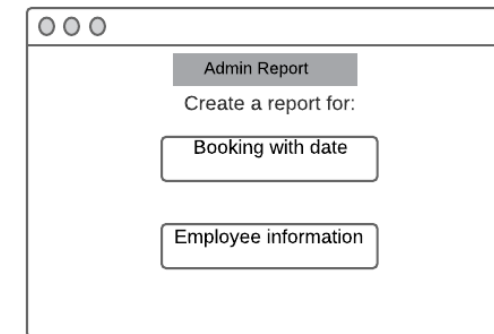

After login is successful, admin is redirected to their homepage where they can access the 'admin report' button

System successfully generates a CSV report from all Employee information

Admin can choose the filters if they want to apply any for the report

From here admin can choose to create a report for the 2 choices
