# admin_add_user_taskflow

Anjali Manoj

## Goal: Admin can add users similar to how users can register

**Home**  **Login**

Home page where they can access the login button

**Login Form**

Username

Password

**Submit**

Login with username and password

**Alter accounts**
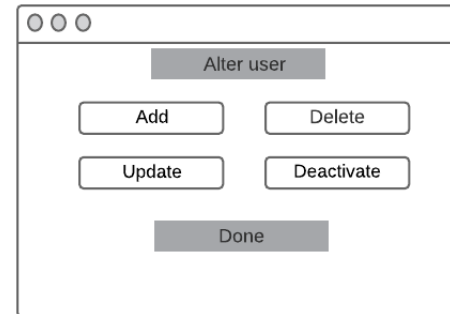

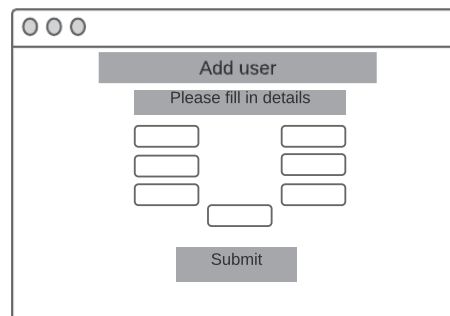

Admin

After login is successful, admin is redirected to their homepage where they can access the 'alter accounts' button

**Alter accounts**
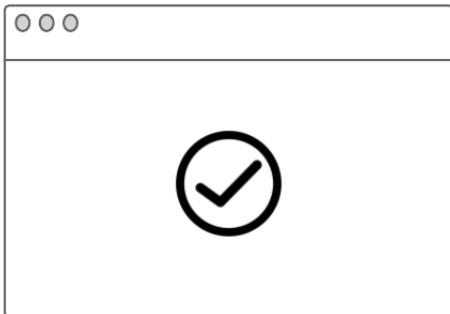

Employee     Admin

From here admin can choose what type of account they want to alter

**Alter user**

Add     Delete

Update     Deactivate

**Done**

These options are same for both employee and admin accounts. From here admin can choose to add/delete/update/deactivate the accounts

**Add user**
**Please fill in details**

**Submit**

Enter user details

Account created
